Program Health Check

2

3 Key Insights – What the Data is telling us

3

The Trend to Own — 6–Month Focus

4

How Resonate CX Gets You There

5

Our Recommended 90–Day Plan

Partnership snapshot

Program Type – Relationship NPS across 5 Australian regions

Total responses collected this wave – 503

Frontline Usage – Active daily dashboard users across centres

Account Status – Renewal in 90 Days

We've recently transitioned **account management**. Our unwavering commitment to make this next phase the most valuable yet for **Blue Mountain**, is still solid!!

Parents Heard

Regions Surveyed

Where Blue Mountain Stands Today

Program Health
Check

4

503 > **Total Parent Responses** **+40.8** > **Overall NPS Score** **35%** > ****Parents Still on the Fence**

- Overall NPS of **+40.8** is driven by 4 strong regions
- *SA is the only region in *negative territory* — more parents would discourage enrolment than recommend it
- **35%** of all parents are still **neutral** — the biggest conversion opportunity sits in SA, where **61.9%** haven't made up their mind

*SA – South Australia ** Blue Mountain Childcare – Dashboard

THE EDUCATOR GAP

Category Breakdown Table

Category	Promoters	Neutral	Detractors
Directors & Educators	4.37	3.07	1.82

- Director & Educators scored **3.61/5** — the lowest of all *6 categories*
- High promoters – detractor pointcliff @ **2.5**
- This is the **highest-leverage fix**, improving educator quality converts **neutrals to promoters** faster than any other investment

Proactive Actions : **Invest in educator training, staff stability & visible qualifications**

South Australia — Crisis and Opportunity

SA NPS composition

Proactive Action → **Room Transition Protocol** (*Advance notice to parents, personal educator introduction, 2-week follow-up after every transition*)

2.77 vs 3.61 Overall

Educator Score

29%

SA % of the overall Responses

-10.9

SA NPS

- **Room Transition** is the **#1** complaint in SA — cited consistently across detractor comments as *stressful, poorly communicated, and unsupported*
- **91** SA parents are *neutral*, not angry — they haven't left and are one good experience away from becoming *promoters*

Proactive Action → **48-Hour Detractor Rule** (*Every SA parent scoring 6 or below gets a direct call from the centre director within 2 days*)

The Feedback Loop Problem

Focusing on solving *the feedback loop issue* should be our **6-Month Priority**

Overall post-survey status

- **62%** of detractors have **zero follow-up** recorded
- Only **1 detractor complaint** ever fully resolved overall

>> Victoria: Success Benchmark

- Victoria has **6 closed responses**, more than all other states combined
- NPS: **+64.1**

Why This, Why Now?

162 complaints acknowledged, backlog growing with no resolution

Closure rate very low with 11 issues closed in 10 weeks

Success story @ Victoria establishes a direct link

Ignored after being heard loses more trust than silence

HOW RESONATE CX GETS YOU THERE

Business Intelligence, not just a survey tool

- Monthly NPS summary to inbox — no login required
- CX Risk Radar — flags at-risk regions before enrolments drop
- Regional benchmarking dashboard — one view, instant intervention signals

Gain Competitive Advantage

- Text Analytics — auto-surfaces themes like Room Transition, no manual tagging
- Robyn AI — ask plain-English questions, get instant insights
- Centre wise benchmarking
- Board-ready monthly templates in minutes

Protect and Sustain parents

- Real-time detractor alerts frontline notified the moment a parent scores 6 or below
- Echo mobile app — see feedback and schedule callbacks on the go
- Customer Centre Stage — live parent sentiment on centre screens

3 Features That Would Change Everything

9

Closed-Loop Feedback Management

Automatic *detractor* *response* *detection* with **48-hr follow up** mechanism to change status from *pending to closed*

Personal CX Analyst

An AI assistant built into the platform for top level instant insight generation *without long reports*

Resonate CX

Proactively flags region where *NPS is trending downward* before it becomes a crisis, sending alerts to **right people at the right time**

THE 90-DAY PLAN

Our ****90 day plan** aims for measureable impact & help our stakeholders (John, Laura ,Frontline Team)to sustain **parental delight & satisfaction**

Timeframe	Focus	Owner
Days 1–30	Identify top 3 SA campuses driving negative NPS. Set up detractor alert workflow. Assign centre-level follow-up owners. Re-establish stakeholder contacts (John as executive sponsor, Laura as day-to-day champion).	Resonate CX + Laura
Days 31–60	48-hour detractor follow-up SLA live across all SA centres. Executive dashboard set up for John — monthly NPS summary to his inbox. Robyn AI demo session with Laura. First monthly insight report built together.	Laura + Centre Directors + Frontline Team
Days 61–90	Review SA NPS movement vs -10.9 baseline. Present Victoria benchmarking findings. Assess room transition protocol results. Activate CX Risk Radar. Prepare renewal business case with measurable results.	John + Laura + Resonate CX

** 90-Day Plan – Document

What This Partnership Gives You

Without Resonate CX

SA's -10.9 NPS invisible until enrolments drop

162 pending complaints sitting unactioned

Frontline insights staying at frontline level

Room transition failures discovered too late

With Resonate CX

SA risk visible now, while it's recoverable

Detractors alerted and followed up within 48 hours via closed-loop case management

Insights flow from ground level to board level via Robyn AI and executive dashboards

Room transition trends flagged in real time via CX Risk Radar

NEXT STEPS WITH BLUE MOUNTAIN

Establish stakeholder contact with John & Laura by end of this week

SA center level data pull and detractor workflow setup with Laura (2 weeks)

Executive dashboard setup and **Robyn AI** demo — within **30 days**

resonate

We *look forward* to guide you & engage with you as your ***trusted CX partner***

THANK YOU
